Title and subject index for Volume 122, 1999

A-fibre nociceptors, and secondary hyperalgesia (Ziegler *et al.*), 2245
Abnormal cerebral structure in juvenile myoclonic epilepsy demonstrated with voxel-based analysis of MRI (Woermann *et al.*), 2101
Abnormal cortical processing of voluntary muscle relaxation in patients with focal hand dystonia studied by movement-related potentials (Yazawa *et al.*), 1357
Absence of a common functional denominator of visual disturbances in cerebellar disease (Thier *et al.*), 2133
Absolute quantification of brain metabolites by proton magnetic resonance spectroscopy in normal-appearing white matter of multiple sclerosis patients (Sarchielli *et al.*), 513
Action perception, effects of learning and intention (Grèzes *et al.*), 1875
Activated non-neural specific T cells open the blood–brain barrier to circulating antibodies (Westland *et al.*), 1283
Adhesion molecule expression in multiple sclerosis (Durán *et al.*), 2297
Ageing and cognitive disability (Esposito *et al.*), 963
Agnosia, visual, and memory (Riddoch *et al.*), 537
Air-puff-induced facilitation of motor cortical excitability studied in patients with discrete brain lesions (Terao *et al.*), 2259
Alzheimer's disease, and classification learning (Kéri *et al.*), 1063
and rhinal cortex dysfunction (Meguro *et al.*), 1519
attention and executive deficits (Perry and Hodges), 383
DNA damage (Love *et al.*), 247
dopamine receptors (Piggott *et al.*), 1449
familial, and presenilin mutations (Gómez-Isla *et al.*), 1709
gyral atrophy and language dissolution (Harasty *et al.*), 675
Amygdala, and gaze monitoring (Kawashima *et al.*), 779
Amyloidosis, and transthyretin Leu12Pro (Brett *et al.*), 183
Amyloidotic polyneuropathy, late-onset familial (Misu *et al.*), 1951
Amyotrophic lateral sclerosis, juvenile (Rabin *et al.*), 1539
Anger and sadness in faces, neural responses (Blair *et al.*), 883
Anomia, in semantic dementia (Mummery *et al.*), 61
Anti-ganglioside antibodies can bind peripheral nerve nodes of Ranvier and activate the complement cascade without inducing acute conduction block *in vitro* (Paparounas *et al.*), 807
Antibodies against the myelin oligodendrocyte glycoprotein and the myelin basic protein in multiple sclerosis and other neurological diseases: a comparative study (Reindl *et al.*), 2047
Antiepileptic drug withdrawal (Chadwick *et al.*), 441
Aphasia, and training-induced brain reorganization (Musso *et al.*), 1781
Apraxia, and movement perception (Sirigu *et al.*), 1867
ideomotor limb, spatial deficits (Haaland *et al.*), 1169
Ataxia, cerebellar, and gait (Ebersbach *et al.*), 1349
episodic type 1, potassium channel gene (Zuberi *et al.*), 817
spinocerebellar, cognitive deficits (Bürk *et al.*), 769
Atrophy–disability relationship in multiple sclerosis (Edwards *et al.*), 291

Attention and executive deficits in Alzheimer's disease: a critical review [review article] (Perry and Hodges), 383
Attention, and response to pain (Peyron *et al.*), 1765
spatial, cerebral activation (Gitelman *et al.*), 1093
visual, over time (Miniussi *et al.*), 1507
Auditory processing, role of the hippocampus (Nishitani *et al.*), 687
Auditory stream segregation in dyslexic adults (Helenius *et al.*), 907
Autism, cognitive skills (Ring *et al.*), 1305
An autopsy-verified study of the effect of education on degenerative dementia (Del Ser *et al.*), 2309
Autosomal dominant juvenile amyotrophic lateral sclerosis (Rabin *et al.*), 1539
Autosomal dominant pure hereditary spastic paraplegia (Reid *et al.*), 1741
Axonal atrophy in *PMP22*-mutant mice (Sancho *et al.*), 1563
Axonal dysfunction, in multiple sclerosis (De Stefano *et al.*), 1933

Basal ganglia blood flow and volume, in Huntington's disease (Harris *et al.*), 1667
Basal ganglia iron, in Parkinson's disease (Griffiths *et al.*), 667
B-cell and T-cell response in multiple sclerosis (Lindert *et al.*), 2089
Becker muscular dystrophy, and energy metabolism (Lodi *et al.*), 121
Behçet's disease, neurological involvement (Akman-Demir *et al.*), 2171
Behçet's syndrome, neurological complications (Kidd *et al.*), 2183
Bethlem myopathy: a slowly progressive congenital muscular dystrophy with contractures (Jöbsis *et al.*), 649
Bilateral subthalamic nucleus stimulation improves frontal cortex function in Parkinson's disease: an electrophysiological study of the contingent negative variation (Gerschlager *et al.*), 2365
Bilingualism, neural substrates (Price *et al.*), 2221
Bimanual co-ordination, medial wall motor area activation (Stephan *et al.*), 351
Bimanual learning, and cortical sensorimotor area coupling (Andres *et al.*), 855
Bladder control disorders (Fowler), 1213
Blind smell: brain activation induced by an undetected air-borne chemical (Sobel *et al.*), 209
Blindsight, and pupil response (Weiskrantz *et al.*), 1533
Blindsight, and visual perception (Morland *et al.*), 1183
Blood–brain barrier, opened by T cells (Westland *et al.*), 1283
Bradykinesia, post-pallidotomy improvement (Kimber *et al.*), 895
Brain activation during maintenance of standing postures in humans (Ouchi *et al.*), 329
Brain areas for verbs and nouns (Perani *et al.*), 2337
Brain damage, right, and contralesional extinction (Oliveri *et al.*), 1731
Brain metabolites in white matter in multiple sclerosis (Sarchielli *et al.*), 513
Brain structures related to active and passive finger movements in man (Mima *et al.*), 1989
Brain/testis protein Ma1 (Dalmau *et al.*), 27
Broca's aphasia, lexical processing (ter Keurs *et al.*), 839

C-fibre afferents, and sympathetic nerve discharge (Elam *et al.*), 2237
CA1 and MHP36 grafts in hippocampal lesions of marmosets (Virley *et al.*), 2321
Callosal and cortical contribution to procedural learning (de Guise *et al.*), 1049
Carpal tunnel syndrome, and conduction block (Kiernan *et al.*), 933
Category-specific object processing differences (Moore and Price), 943
Category specificity, neural correlates (Gerlach *et al.*), 2159
Cerebellar ataxia, and gait (Ebersbach *et al.*), 1349
Cerebellar disease, visual disturbances (Thier *et al.*), 2133
Cerebellar lesions, and smooth pursuit initiation (Moschner *et al.*), 2147
A cerebellar-like terminal and postural tremor induced in normal man by transcranial magnetic stimulation (Topka *et al.*), 1551
Cerebellum in non-motor associative learning (Drepper *et al.*), 87
Cerebral abnormality in juvenile myoclonic epilepsy (Woermann *et al.*), 2101
Cerebral activation, and spatial orientation (Gitelman *et al.*), 1093
Cerebral blood flow changes, in epileptic discharges (Kahane *et al.*), 1851
Cerebral correlates of preserved cognitive skills in autism: a functional MRI study of Embedded Figures Task performance (Ring *et al.*), 1305
Cerebral cortex, and epilepsy (DeFelipe), 1807
Cerebral dominance in epilepsy (Springer *et al.*), 2033
The cerebral haemodynamics of music perception: a transcranial Doppler sonography study (Evers *et al.*), 75
Cerebral palsy children, and impaired grip–lift synergy (Forssberg *et al.*), 1157
Cerebrotendinous xanthomatosis (Verrips *et al.*), 1589
Chandelier cells and epilepsy [review article] (DeFelipe), 1807
Changes in transmission in the pathway of heteronymous spinal recurrent inhibition from soleus to quadriceps motor neurons during movement in man (Iles and Pardoe), 1757
Characterization of nodular neuronal heterotopia in children (Hannan *et al.*), 219
Charcot–Marie–Tooth disease, and distal axonopathy (Sancho *et al.*), 1563
and myelin protein zero gene (De Jonghe *et al.*), 281
Chronic inflammatory demyelinating polyneuropathy (Duggins *et al.*), 1383
Churg–Strauss syndrome neuropathy (Hattori *et al.*), 427
Classification learning in Alzheimer's disease (Kéri *et al.*), 1063
The clinical and epidemiological profile of tick-borne encephalitis in southern Germany 1994–1998: a prospective study of 656 patients (Kaiser), 2067
Clinical genetics of familial progressive supranuclear palsy (Rojo *et al.*), 1233
A clinical pathological comparison of three families with frontotemporal dementia and identical mutations in the tau gene (*P301L*) (Bird *et al.*), 741
Clinical patterns of neurological involvement in Behçet's disease: evaluation of 200 patients (Akman-Demir *et al.*), 2171
A clinical study of motor evoked potentials using a triple stimulation technique (Magistris *et al.*) 265
Clinicopathological features of Churg–Strauss syndrome-associated neuropathy (Hattori *et al.*), 427
Cognition, following pallidotomy (York *et al.*), 2209
genetic basis (Flint), 2015
Cognitive associative learning and the cerebellum (Drepper *et al.*), 87
Cognitive deficits, in frontotemporal dementia (Rahman *et al.*), 1469
in spinocerebellar ataxia 2 (Bürk *et al.*), 769
Cognitive disability in ageing (Esposito *et al.*), 963
Cognitive function in primary progressive and transitional progressive multiple sclerosis: a controlled study with MRI correlates (Camp *et al.*), 1341
Cognitive motor control in human pre-supplementary motor area studied by subdural recording of discrimination/selection-related potentials (Ikeda *et al.*), 915

Cognitive skills in autism (Ring *et al.*), 1305
Coherent cortical and muscle discharge in cortical myoclonus (Brown *et al.*), 461
Collagenase-3, in bacterial meningitis (Kieseier *et al.*), 1579
Common inhibitory mechanism in human inferior prefrontal cortex revealed by event-related functional MRI (Konishi *et al.*), 981
Comparative analysis of gait in Parkinson's disease, cerebellar ataxia and subcortical arteriosclerotic encephalopathy (Ebersbach *et al.*), 1349
Comprehension and memory, neuroanatomy (Maguire *et al.*), 1839
Conduction block in carpal tunnel syndrome (Kiernan *et al.*), 933
Context-dependent, neural system-specific neurophysiological concomitants of ageing: mapping PET correlates during cognitive activation (Esposito *et al.*), 963
Corpus callosum composition, related to gender and schizophrenia (Highley *et al.*), 99
Cortical and muscle discharge in myoclonus (Brown *et al.*), 461
Cortical areas in procedural learning (de Guise *et al.*), 1049
Cortical blindness, and visual perception (Morland *et al.*), 1183
Cortical lesions in multiple sclerosis (Kidd *et al.*), 17
Cortical network activation after stroke (Forss *et al.*), 1889
Corticomotoneuronal synaptic connections in normal man: an electrophysiological study (Maertens de Noordhout *et al.*), 1327
Creutzfeldt–Jakob disease, clinical diagnosis (Poser *et al.*), 2345
Cutaneous perception, interhemispheric asymmetries (Oliveri *et al.*), 1721

Deficits of smooth pursuit initiation in patients with degenerative cerebellar lesions (Moschner *et al.*), 2147
Dementia, effect of education (Del Ser *et al.*), 2309
frontotemporal, and tau gene mutation (Bird *et al.*), 741
frontotemporal, cognitive deficits (Rahman *et al.*), 1469
with Lewy bodies, dopamine receptors (Piggott *et al.*), 1449
Development of a multiple sclerosis functional composite as a clinical trial outcome measure (Cutter *et al.*), 871
Dexterity in spastic hemiplegia children (Forssberg *et al.*), 1157
Diabetes, experimental, gene expression (Scott *et al.*), 2109
Diabetes mellitus, and streptozotocin-diabetic rats (Biessels *et al.*), 757
Differential expression of matrix metalloproteinases in bacterial meningitis (Kieseier *et al.*), 1579
Differential pupillary constriction and awareness in the absence of striate cortex (Weiskrantz *et al.*), 1533
Differential spatial memory impairment after right temporal lobectomy demonstrated using temporal titration (Nunn *et al.*), 47
Direct comparison of the neural substrates of recognition memory for words and faces (Kim *et al.*), 1069
Disrupted temporal lobe connections in semantic dementia (Mummery *et al.*), 61
Dissociable neural responses to facial expressions of sadness and anger (Blair *et al.*), 883
Distal axonopathy in peripheral nerves of *PMP22*-mutant mice (Sancho *et al.*), 1563
The distribution of ganglioside-like moieties in peripheral nerves (Sheikh *et al.*), 449
DNA damage in Alzheimer's disease (Love *et al.*), 247
Does sympathetic nerve discharge affect the firing of polymodal C-fibre afferents in humans? (Elam *et al.*), 2237
Does withdrawal of different antiepileptic drugs have different effects on seizure recurrence?: further results from the MRC Antiepileptic Drug Withdrawal Study (Chadwick), 441
Dopamine loss in Huntington's disease (Andrews *et al.*), 2353
Dopamine receptors in Lewy body dementia (Piggott *et al.*), 1449
Dopaminergic function in Parkinson's disease (Rakshi *et al.*), 1637
Drug withdrawal in epilepsy (Chadwick), 441
Dual pathology epilepsy, post-surgery (Li *et al.*), 799
Dynamics of letter string perception in the human occipitotemporal cortex (Tarkiainen *et al.*), 2119
Dyslexia, and auditory processing (Helenius *et al.*), 907
and word processing (Brunswick *et al.*), 1901
Dysmetropsia following prestriate lesion (Frassinetti *et al.*), 339
Dystonia, focal hand, muscle relaxation processing (Yazawa *et al.*), 1357
idiopathic torsion, *DYT1* mutation (Lebre *et al.*), 41
DYT1 mutation in French families with idiopathic torsion dystonia (Lebre *et al.*), 41

EEG-triggered functional MRI of interictal epileptiform activity in patients with partial seizures (Krakow *et al.*), 1679
The effects of learning and intention on the neural network involved in the perception of meaningless actions (Grèzes *et al.*), 1875
The effects of posteroventral pallidotomy on the preparation and execution of voluntary hand and arm movements in Parkinson's disease (Limousin *et al.*), 315
Electrophysiological manifestations of open- and closed-class words in patients with Broca's aphasia with agrammatic comprehension: an event-related brain potential study (ter Keurs *et al.*), 839
Encephalitis, tick-borne (Kaiser), 2067
Energy metabolism, in Becker muscular dystrophy (Lodi *et al.*), 121
Epilepsy, and chandelier cells (DeFelipe), 1807
and drug withdrdawal (Chadwick), 441
and interictal epileptiform activity (Krakow *et al.*), 1679
and language dominance (Springer *et al.*), 2033
juvenile myoclonic (Woermann *et al.*), 2101
limbic, and CA1 cell loss (Milward *et al.*), 1009
nocturnal frontal lobe (Provini *et al.*), 1017
Epilepsy with dual pathology, post-surgery (Li *et al.*), 799
Epilepsy, with focal ictal direct current shifts (Ikeda *et al.*), 827
Epileptic discharges, and cerebral blood flow changes (Kahane *et al.*), 1851
Episodic ataxia type 1, potassium channel gene (Zuberi *et al.*), 817
Episodic memory retrieval, right prefrontal cortex activation (Henson *et al.*), 1367
Episodic retrieval activates the precuneus irrespective of the imagery content of word pair associates: a PET study (Krause *et al.*), 255
Event-related potentials for language (Friederici *et al.*), 1033
Executive function and attention in Alzheimer's disease (Perry and Hodges), 383
Experimental autoimmune neuritis, and T-cell receptors (Stienekemeier *et al.*), 523
Explicit and implicit processing of words and pseudowords by adult developmental dyslexics: a search for Wernicke's Wortschatz? (Brunswick *et al.*), 1901
Eye movements, smooth pursuit (Haarmeier and Thier), 1495

Face recognition, neural substrates (Kim *et al.*), 1069

Facial expression processing (Blair *et al.*), 883
Familial amyloid polyneuropathy, and transthyretin Leu12Pro (Brett *et al.*), 183
Familial amyloidotic polyneuropathy in Japan (Misu *et al.*), 1951
Fatal familial insomnia: a new Austrian family (Almer *et al.*), 5
Finger movements in Parkinson's disease (Catalan *et al.*), 483
brain structures (Mima *et al.*), 1989
Finger stimulation, and sensory feedback (Terao *et al.*), 2259
Focal hand dystonia, muscle relaxation processing (Yazawa *et al.*), 1357
Focal ictal direct current shifts in human epilepsy as studied by subdural and scalp recording (Ikeda *et al.*), 827
Forebrain ischaemia with CA1 cell loss impairs epileptogenesis in the tetanus toxin limbic seizure model (Milward *et al.*), 1009
From off-period dystonia to peak-dose chorea: the clinical spectrum of varying subthalamic nucleus activity (Krack *et al.*), 1133
Frontal lobe, right, in humour (Shammi and Stuss), 657
Frontal, midbrain and striatal dopaminergic function in early and advanced Parkinson's disease: a 3D [^{18}F]dopa-PET study (Rakshi *et al.*), 1637
Frontotemporal dementia, and tau gene mutation (Bird *et al.*), 741
cognitive deficits (Rahman *et al.*), 1469
with semantic deterioration and anomia (Mummery *et al.*), 61
Functional coupling of human cortical sensorimotor areas during bimanual skill acquisition (Andres *et al.*), 855
Functional differentiation of medial temporal and frontal regions involved in processing novel and familiar words: an fMRI study (Saykin *et al.*), 1963
A functional imaging study of translation and language switching (Price *et al.*), 2221
The functional neuroanatomy of comprehension and memory: the importance of prior knowledge (Maguire *et al.*), 1839
A functional neuroimaging study of the variables that generate category-specific object processing differences (Moore and Price), 943
Fusimotor function in stroke (Wilson *et al.*), 2079

Gait, comparative analysis (Ebersbach *et al.*), 1349
Gait disturbance in Parkinson's disease (Hanakawa *et al.*), 1271
Gait, spastic, and tendon jerk reflexes (Faist *et al.*), 567
Ganglioside-like moieties in peripheral nerves (Sheikh *et al.*), 449
Ganglioside neurophsiology (Paparounas *et al.*), 807
Gaze monitoring, role of amygdala (Kawashima *et al.*), 779
Gelatinase B, in bacterial meningitis (Kieseier *et al.*), 1579
Gender, and the corpus callosum (Highley *et al.*), 99
Gender, in language processing (Frost *et al.*), 199
Gene expression in experimental diabetes (Scott *et al.*), 2109
The genetic basis of cognition [review article] (Flint), 2015
Gerstmann syndrome (Mayer *et al.*), 1107
Getting a grasp on research: does treatment taint testing of parkinsonian patients? [letter] (Gordon and Reilmann), 1597
Glucose hypometabolism in primate rhinal cortex (Meguro *et al.*), 1519
Glycolytic activity of skeletal muscle in Becker muscular dystrophy (Lodi *et al.*), 121
Gyral atrophy and language dissolution in Alzheimer's disease (Harasty *et al.*), 675

An $H_2{}^{15}O$-PET study of cerebral blood flow changes during focal epileptic discharges induced by intracerebral electrical stimulation (Kahane *et al.*), 1851
Haemodynamic brain responses to acute pain in humans: sensory and attentional networks (Peyron *et al.*), 1765
Hallucinations, visual (ffytche and Howard), 1247
Hand co-ordination, medial wall motor area activation (Stephan *et al.*), 351
Headache, tension-type, and nitric oxide synthase inhibitors (Ashina *et al.*), 1629
Heat sensation in skin cooling (Susser *et al.*), 239
Heat, stimulus response (Peyron *et al.*), 1765
Hemispheric asymmetry in sensory perception (Oliveri *et al.*), 1721
Hemispheric lateralization of music perception (Evers *et al.*), 75
Heterogeneity of T-cell receptor usage in experimental autoimmune neuritis in the Lewis rat (Stienekemeier *et al.*), 523
Heteronymous spinal recurrent inhibition (Iles and Pardoe), 1757
Heterotopia, nodular neuronal, in children (Hannan *et al.*), 219
Hippocampal lesions in marmosets, CA1 and MHP36 grafts (Virley *et al.*), 2321
Hippocampal sclerosis (Bürk *et al.*), 769
Hippocampus in auditory processing (Nishitani *et al.*), 687
HLA-DPB1*0501-associated opticospinal multiple sclerosis: clinical, neuroimaging and immunogenetic studies (Yamasaki *et al.*), 1689
How to improve the clinical diagnosis of Creutzfeldt–Jakob disease (Poser *et al.*), 2345
The human amygdala plays an important role in gaze monitoring: a PET study (Kawashima *et al.*), 779
Humour appreciation: a role of the right frontal lobe (Shammi and Stuss), 657
Huntington's disease progression: PET and clinical observations (Andrews *et al.*), 2353
Huntington's disease, basal ganglia blood flow and volume (Harris *et al.*), 1667
sensory processing (Boecker *et al.*), 1651
Hyperalgesia, secondary, and A-fibre nociceptors (Ziegler *et al.*), 2245
Hypothalamus expression of interleukin-1 type I receptor (Hammond *et al.*), 1697
Hypothermic neuroprotection of peripheral nerve of rats from ischaemia–reperfusion injury (Mitsui *et al.*), 161

Ictal direct current shifts in epilepsy (Ikeda *et al.*), 827
Idiopathic torsion dystonia, *DYT1* mutation (Lebre *et al.*), 41
Immunological profile of patients with primary progressive multiple sclerosis: expression of adhesion molecules (Durán *et al.*), 2297
The impact of different presenilin 1 and presenilin 2 mutations on amyloid deposition, neurofibrillary changes and neuronal loss in the familial Alzheimer's disease brain: evidence for other phenotype-modifying factors (Gómez-Isla *et al.*), 1709
Impaired analysis of moving objects due to deficient smooth pursuit eye movements (Haarmeier and Thier), 1495
Impaired grip–lift synergy in children with unilateral brain lesions (Forssberg *et al.*), 1157
Impaired modulation of quadriceps tendon jerk reflex during spastic gait: differences between spinal and cerebral lesions (Faist *et al.*), 567
Impairment in preattentive visual processing in patients with Parkinson's disease (Lieb *et al.*), 303
In vivo evidence for axonal dysfunction remote from focal cerebral demyelination of the type seen in multiple sclerosis (De Stefano *et al.*), 1933

Increased poly(ADP-ribosyl)ation of nuclear proteins in Alzheimer's disease (Love *et al.*), 247
Infratentorial atrophy on magnetic resonance imaging and disability in multiple sclerosis (Edwards *et al.*), 291
Inherited prion disease with an alanine to valine mutation at codon 117 in the prion protein gene (Mallucci *et al.*), 1823
Inhibitory mechanism in prefrontal cortex (Konishi *et al.*), 981
Insomnia, fatal familial (Almer *et al.*), 5
Insulin treatment in streptozotocin-diabetic rats (Biessels *et al.*), 757
Intent and sensory outcome conflict (Fink *et al.*), 497
Interhemispheric asymmetries in the perception of unimanual and bimanual cutaneous stimuli: a study using transcranial magnetic stimulation (Oliveri *et al.*), 1721
Interictal epileptiform activity, in partial seizures (Krakow *et al.*), 1679
The interleukin-1 type I receptor is expressed in human hypothalamus (Hammond *et al.*), 1697
Iron in the basal ganglia in Parkinson's disease: an *in vitro* study using extended X-ray absorption fine structure and cryo-electron microscopy (Griffiths *et al.*), 667
Ischaemia, forebrain, in tetanus toxin limbic seizure model (Milward *et al.*), 1009
Ischaemic damage, irreversible, in acute stroke, mapping with PET

Juvenile amyotrophic lateral sclerosis (Rabin *et al.*), 1539
Juvenile myoclonic epilepsy, cerebral abnormality (Woermann *et al.*), 2101

Landau–Kleffner syndrome, language outcome of transection (Grote *et al.*), 561
Language dissolution in Alzheimer's disease (Harasty *et al.*), 675
Language dominance in neurologically normal and epilepsy subjects: a functional MRI study (Springer *et al.*), 2033
Language outcome following multiple subpial transection for Landau–Kleffner syndrome (Grote *et al.*), 561
Language processing is strongly left lateralized in both sexes: evidence from functional MRI (Frost *et al.*), 199
Language processing, neuroanatomy (Maguire *et al.*), 1839
Language-related brain potentials in patients with cortical and subcortical left hemisphere lesions (Friederici *et al.*), 1033
Language switching and translation, neural substrates (Price *et al.*), 2221
A large-scale distributed network for covert spatial attention: further anatomical delineation based on stringent behavioural and cognitive controls (Gitelman *et al.*), 1093
Late-onset familial amyloid polyneuropathy type I (transthyretin Met30-associated familial amyloid polyneuropathy) unrelated to endemic focus in Japan: clinicopathological and genetic features (Misu *et al.*), 1951
Lateralization of language processing (Frost *et al.*), 199
Learning, and cerebellar disease (Drepper *et al.*), 87
Left frontal transcranial magnetic stimulation reduces contralesional extinction in patients with unilateral right brain damage (Oliveri *et al.*), 1731
Left hemisphere lesions and language processing (Friederici *et al.*), 1033
Lesion location significance, in Parkinson's disease (Gross *et al.*), 405
Letter string perception, occipitotemporal cortex involvement (Tarkiainen *et al.*), 2119
Leucomalacia, periventricular, and posture control (Hadders-Algra *et al.*), 727
Levodopa-induced dyskinesia, subthalamic nucleus stimulation effects (Krack *et al.*), 1133
Lewy body dementia, dopamine receptors (Piggott *et al.*), 1449
Lexical processing in Broca's aphasia (ter Keurs *et al.*), 839
Limb apraxia, ideomotor, spatial deficits (Haaland *et al.*), 1169
Limb-girdle muscular dystrophies (Bushby), 1403
Limbic epilepsy, and CA1 cell loss (Milward *et al.*), 1009
Lipid storage myopathy, and riboflavin therapy (Vergani *et al.*), 2401
Lobectomy, right temporal, and spatial memory (Nunn *et al.*), 47
Locomotion control in Parkinson's disease (Azulay *et al.*), 111
Locus–phenotype correlations in autosomal dominant pure hereditary spastic paraplegia: a clinical and molecular genetic study of 28 United Kingdom families (Reid *et al.*), 1741

Ma1, a novel neuron- and testis-specific protein, is recognized by the serum of patients with paraneoplastic neurological disorders (Dalmau *et al.*), 27
Making sense of the limb-girdle muscular dystrophies [review article] (Bushby), 1403
Mapping the network for planning: a correlational PET activation study with the Tower of London task (Dagher *et al.*), 1973
ischaemic damage in stroke with PET
Matrix metalloproteinases in bacterial meningitis (Kieseier *et al.*), 1579
Mechanisms underlying gait disturbance in Parkinson's disease: a single photon emission computed tomography study (Hanakawa *et al.*), 1271
Memories are made of this: the effects of time on stored visual knowledge in a case of visual agnosia (Riddoch *et al.*), 537
Memory and comprehension, neuroanatomy (Maguire *et al.*), 1839
Memory, episodic, and precuneus (Krause *et al.*), 255
Memory for words, brain regions (Saykin *et al.*), 1963
Memory impairment after lobectomy (Nunn *et al.*), 47
Meningioangiomatosis: a comprehensive analysis of clinical and laboratory features (Wiebe *et al.*), 709
Meningitis, bacterial, and matrix metalloproteinases (Kieseier *et al.*), 1579
Metalloproteinase responses in multiple sclerosis (Lee *et al.*), 191
MHP36 and CA1 grafts in hippocampal lesions of marmosets (Virley *et al.*), 2321
Micturition disorders (Fowler), 1213
Migraine and visual evoked potentials (Oelkers *et al.*), 1147
Modified activation of somatosensory cortical network in patients with right-hemisphere stroke (Forss *et al.*), 1889
Motion perception, in congenital nystagmus (Okada *et al.*), 1293
Motor control in pre-supplementary motor area (Ikeda *et al.*), 915
Motor cortex stimulation (Maertens de Noordhout *et al.*), 1327
Motor cortical excitability, and brain lesions (Terao *et al.*), 2259
Motor-evoked potentials, triple stimulation technique study (Magistris *et al.*) 265
Motor function after pallidotomy in Parkinson's disease (Limousin *et al.*), 315
Motor learning, and cortical sensorimotor area coupling (Andres *et al.*), 855
Motor perception, cerebellar deficits (Moschner *et al.*), 2147
Movement, sequential, in Parkinson's disease (Catalan *et al.*), 483
Movements of fingers, brain structures (Mima *et al.*), 1989
Multiple sclerosis, and brain metabolites in white matter (Sarchielli *et al.*), 513
and infratentorial atrophy (Edwards *et al.*), 291
Multiple sclerosis assessment, clinical rating scales (Sharrack *et al.*), 141

Multiple sclerosis axonal dysfunction (De Stefano *et al.*), 1933
Multiple sclerosis: B- and T-cell responses to the extracellular domain of the myelin oligodendrocyte glycoprotein (Lindert *et al.*), 2089
Multiple sclerosis, clinical outcome measure (Cutter *et al.*), 871
cognitive function (Camp *et al.*), 1341
cortical lesions (Kidd *et al.*), 17
lesion volume mapping (Lee *et al.*), 1261
metalloproteinase response (Lee *et al.*), 191
myelin protein antibodies (Reindl *et al.*), 2047
oligodendrocyte analysis (Lucchinetti *et al.*), 2279
opticospinal (Yamasaki *et al.*), 1689
primary progressive, and adhesion molecules (Durán *et al.*), 2297
primary progressive, clinical features (Cottrell *et al.*), 625
primary progressive, clinical trials (Cottrell *et al.*), 641
progressive–relapsing and relapsing–progressive (Kremenchutzky *et al.*), 1941
Multiple subpial transection for Landau–Kleffner syndrome (Grote *et al.*), 561
Muscle spindle activity in the affected upper limb after a unilateral stroke (Wilson *et al.*), 2079
Muscular dystrophies, limb-girdle (Bushby), 1403
Muscular dystrophy, Becker, and energy metabolism (Lodi *et al.*), 121
Bethlem myopathy type (Jöbsis *et al.*), 649
Music perception, Doppler sonography study (Evers *et al.*), 75
Mutant channels contribute <50% to Na^+ current in paramyotonia congenita muscle (Mitrovic *et al.*), 1085
Myelin oligodendrocyte glycoprotein, in multiple sclerosis (Lindert *et al.*), 2089
Myelin protein antibodies in multiple sclerosis (Reindl *et al.*), 2047
Myelin protein zero gene, in Charcot–Marie–Tooth disease (De Jonghe *et al.*), 281
Myoclonus, cortical and muscle discharge (Brown *et al.*), 461
Myopathy, Bethlem (Jöbsis *et al.*), 649

The natural history of multiple sclerosis: a geographically based study. 5: The clinical features and natural history of primary progressive multiple sclerosis (Cottrell *et al.*), 625
The natural history of multiple sclerosis: a geographically based study. 6: Applications to planning and interpretation of clinical therapeutic trials in primary progressive multiple sclerosis (Cottrell *et al.*), 641
The natural history of multiple sclerosis: a geographically based study. 7: Progressive–relapsing and relapsing–progressive multiple sclerosis: a re-evaluation (Kremenchutzky *et al.*), 1941
Necker cube study of unilateral neglect (Bisiach *et al.*), 131
Neglect, unilateral, and spatial attention (Bisiach *et al.*), 131
Neocortical and hippocampal glucose hypometabolism following neurotoxic lesions of the entorhinal and perirhinal cortices in the non-human primate as shown by PET: implications for Alzheimer's disease (Meguro *et al.*), 1519
Neonatal floppiness of Bethlem myopathy (Jöbsis *et al.*), 649
Nerve function, and anti-ganglioside antibodies (Paparounas *et al.*), 807
Nerve hyperexcitability, and potassium currents (Nagado *et al.*), 2057
The neural consequences of conflict between intention and the senses (Fink *et al.*), 497
The neural correlates of verb and noun processing: a PET study (Perani *et al.*), 2337
Neural grafting, sequential, in Parkinson's disease (Hagell *et al.*), 1121
Neural networks, effects of stroke (Forss *et al.*), 1889
Neural responses to negative facial expressions (Blair *et al.*), 883
Neural substrates for word and face recognition (Kim *et al.*), 1069
Neuritis, experimental autoimmune, and T-cell receptors (Stienekemeier *et al.*), 523
Neurofibromatosis type 1, neurological complications (Créange *et al.*), 473
Neurofilament and tubulin gene expression in progressive experimental diabetes: failure of synthesis and export by sensory neurons (Scott *et al.*), 2109
Neurological complications in Behçet's syndrome (Kidd *et al.*), 2183
Neurological complications of neurofibromatosis type 1 in adulthood (Créange *et al.*), 473
Neurological disorders of micturition and their treatment [review article] (Fowler), 1213
Neuromyolonia, acquire, and potassium currents (Nagado *et al.*), 2057
Neuronal heterotopia in children (Hannan *et al.*), 219
Neuronal network for planning (Dagher *et al.*), 1973
The neuropathology of schizophrenia: a critical review of the data and their interpretation [review article] (Harrison), 593
Neuropathy of Churg–Strauss syndrome (Hattori *et al.*), 427
Neurophysiological changes in the central and peripheral nervous system of streptozotocin-diabetic rats: course of development and effects of insulin treatment (Biessels *et al.*), 757
Neurophysiological effects of stimulation through electrodes in the human subthalamic nucleus (Ashby *et al.*), 1919
Neuroprotection by cooling (Mitsui *et al.*), 161
Neuropsychological outcome following unilateral pallidotomy [review article] (York *et al.*), 2209
Nitric oxide synthase inhibitors in headache (Ashina *et al.*), 1629
Nocturnal frontal lobe epilepsy: a clinical and polygraphic overview of 100 consecutive cases (Provini *et al.*), 1017
Nodular neuronal heterotopia in children (Hannan *et al.*), 219
Non-motor associative learning in patients with isolated degenerative cerebellar disease (Drepper *et al.*), 87
Noun and verb processing, neural correlates (Perani *et al.*), 2337
A novel mutation in the human voltage-gated potassium channel gene (*Kv1.1*) associates with episodic ataxia type 1 and sometimes with partial epilepsy (Zuberi *et al.*), 817
Nystagmus, congenital, and vestbular function (Okada *et al.*), 1293

Object processing, variables of category specificity (Moore and Price), 943
Object recognition, neural correlates (Gerlach *et al.*), 2159
Occipitotemporal cortex, letter string perception (Tarkiainen *et al.*), 2119
Odour-induced brain activation (Sobel *et al.*), 209
Oligodendrocytes in multiple sclerosis, quantitative analysis (Lucchinetti *et al.*), 2279
Opticospinal multiple sclerosis (Yamasaki *et al.*), 1689
Orienting attention in time: modulation of brain potentials (Miniussi *et al.*), 1507

Pain sensation, and A-fibre nociceptors (Ziegler *et al.*), 2245
Pain, stimulus response (Peyron *et al.*), 1765
Pallidotomy, followed by parkinsonian bradykinesia improvement (Kimber *et al.*), 895
Pallidotomy, neuropsychological outcome (York *et al.*), 2209

Pallidotomy, posteroventral, and parkinsonian movements (Limousin *et al.*), 315
Pallidotomy, unilateral, in Parkinson's disease (Samii *et al.*), 417
Palsy, progressive supranuclear (Rojo *et al.*), 1233
Paradoxical heat sensation in healthy subjects: peripherally conducted by Aδ or C fibres? (Susser *et al.*), 239
Paraneoplastic neurological disorders, and Ma1 (Dalmau *et al.*), 27
Parietal cortex in movement perception (Sirigu *et al.*), 1867
Parkinson's disease, and basal ganglia iron (Griffiths *et al.*), 667
and gait (Ebersbach *et al.*), 1349
and lesion location (Gross *et al.*), 405
and locomotion control (Azulay *et al.*), 111
and pallidotomy (York *et al.*), 2209
and posteroventral pallidotomy effects (Limousin *et al.*), 315
and preattentive processing (Lieb *et al.*), 303
and sequential finger movements (Catalan *et al.*), 483
and subthalamic nucleus stimulation (Gerschlager *et al.*), 2365
and unilateral pallidotomy (Samii *et al.*), 417
bradykinesia improvement, post-pallidotomy (Kimber *et al.*), 895
dopamine receptors (Piggott *et al.*), 1449
dopaminergic function (Rakshi *et al.*), 1637
effect of treatment on testing (Gordon and Reilmann), 1597
gait disturbance (Hanakawa *et al.*), 1271
sensory processing (Boecker *et al.*), 1651
sequential neural grafting (Hagell *et al.*), 1121
substantia nigra neuron loss (Damier *et al.*), 1437
substantia nigra organization (Damier *et al.*), 1421
varying subthalamic nucleus activity (Krack *et al.*), 1133
Parkinsonism, and subthalamic nucleus stimulation (Ashby *et al.*), 1919
Pattern spatial frequency in migraine visual evoked potentials (Oelkers *et al.*), 1147
Perception of meaningless actions, effects of learning (Grèzes *et al.*), 1875
Perception of self-generated movement following left parietal lesion (Sirigu *et al.*), 1867
The perceptual consequences of visual loss: 'positive' pathologies of vision (ffytche and Howard), 1247
Perceptual differentiation and category effects in normal object recognition: a PET study (Gerlach *et al.*), 2159
Peripheral myelin protein 22-mutant mice with distal axonopathy (Sancho *et al.*), 1563
Peripheral nerve protected by cooling (Mitsui *et al.*), 161
Peripheral nerves, and ganglioside-like moieties (Sheikh *et al.*), 449
Peripheral neuropathy, Churg–Strauss syndrome (Hattori *et al.*), 427
Periventricular leucomalacia and preterm birth have different detrimental effects on postural adjustments (Hadders-Algra *et al.*), 727
A PET study of sequential finger movements of varying length in patients with Parkinson's disease (Catalan *et al.*), 483
Phonological processing in dyslexia (Helenius *et al.*), 907
Planning tasks, neuronal network mapping (Dagher *et al.*), 1973
Plexus hypertrophy in chronic inflammatory demyelinating polyneuropathy (Duggins *et al.*), 1383
Poly(ADP-ribose) polymerase in Alzheimer's disease (Love *et al.*), 247
Polyneuropathy, chronic inflammatory demyelinating (Duggins *et al.*), 1383
late-onset familial amyloidotic (Misu *et al.*), 1951
Possible mechanisms of action of nitric oxide synthase inhibitors in chronic tension-type headache (Ashina *et al.*), 1629
Posteroventral pallidotomy, and parkinsonian movements (Limousin *et al.*), 315
Postural balance and brain activation (Ouchi *et al.*), 329
Postural control following preterm birth (Hadders-Algra *et al.*), 727
Potassium channel gene in episodic ataxia type 1 (Zuberi *et al.*), 817
Potassium current suppression in patients with peripheral nerve hyperexcitability (Nagado *et al.*), 2057
Pre-supplementary motor area, and motor control (Ikeda *et al.*), 915
Precuneus in edisodic memory retrieval (Krause *et al.*), 255
Prefrontal cortex inhibitory mechanism (Konishi *et al.*), 981
Prefrontal cortex, right, and episodic memory retrieval (Henson *et al.*), 1367
Premature birth and postural control (Hadders-Algra *et al.*), 727
Presenilin mutations in familial Alzheimer's disease (Gómez-Isla *et al.*), 1709
Primary CA1 and conditionally immortal MHP36 cell grafts restore conditional discrimination learning and recall in marmosets after excitotoxic lesions of the hippocampal CA1 field (Virley *et al.*), 2321
Prion disease, inherited, fatal insomnia (Almer *et al.*), 5
inherited, psychiatric features (Laplanche *et al.*), 2375
inherited, with prion protein gene mutation (Mallucci *et al.*), 1823
Procedural learning, callosal and cortical contribution (de Guise *et al.*), 1049
Progressive supranuclear palsy (Rojo *et al.*), 1233
Prominent psychiatric features and early onset in an inherited prion disease with a new insertional mutation in the prion protein gene (Laplanche *et al.*), 2375
The psychometric properties of clinical rating scales used in multiple sclerosis (Sharrack *et al.*), 141
Pupil response in hemianopia (Weiskrantz *et al.*), 1533
A pure case of Gerstmann syndrome with a subangular lesion (Mayer *et al.*), 1107
Putamen grafts in Parkinson's disease (Hagell *et al.*), 1121

A quantitative analysis of oligodendrocytes in multiple sclerosis lesions: a study of 113 cases (Lucchinetti *et al.*), 2279

Reading in dyslexia (Brunswick *et al.*), 1901
Reading, right hemisphere in discourse processing (St George *et al.*), 1317
Reassessment of unilateral pallidotomy in Parkinson's disease: a 2-year follow-up study (Samii *et al.*), 417
Recognition memory, neural substrates (Kim *et al.*), 1069
Reduced basal ganglia blood flow and volume in pre-symptomatic, gene-tested persons at-risk for Huntington's disease (Harris *et al.*), 1667
Reduced cytosolic acidification during exercise suggests defective glycolytic activity in skeletal muscle of patients with Becker muscular dystrophy: an *in vivo* ^{31}P magnetic resonance spectroscopy study (Lodi *et al.*), 121
Relationship of lesion location to clinical outcome following microelectrode-guided pallidotomy in Parkinson's disease (Gross *et al.*), 405
Response inhibition in prefrontal cortex (Konishi *et al.*), 981
Rhinal cortex dysfunction in primates (Meguro *et al.*), 1519
Riboflavin therapy: biochemical heterogeneity in two adult lipid storage myopathies (Vergani *et al.*), 2401
Right frontal lobe in humour (Shammi and Stuss), 657
Right hemisphere, in discourse processing (St George *et al.*), 1317
Right prefrontal cortex and episodic memory retrieval: a functional MRI test of the

monitoring hypothesis (Henson *et al.*), 1367
The role of the hippocampus in auditory processing studied by event-related electric potentials and magnetic fields in epilepsy patients before and after temporal lobectomy (Nishitani *et al.*), 687
The role of ventral medial wall motor areas in bimanual co-ordination: a combined lesion and activation study (Stephan *et al.*), 351

Sadness and anger in faces, neural responses (Blair *et al.*), 883
Schizophrenia, and the corpus callosum (Highley *et al.*), 99
neuropathology (Harrison), 593
Secondary hyperalgesia to punctate mechanical stimuli: central sensitization to A-fibre nociceptor input (Ziegler *et al.*), 2245
Seizure recurrence and drug withdrawal (Chadwick), 441
Seizures, partial, and interictal epileptiform activity (Krakow *et al.*), 1679
Selective horizontal dysmetropsia following prestriate lesion (Frassinetti *et al.*), 339
Semantic dementia, temporal lobe connections (Mummery *et al.*), 61
Semantic integration in reading: engagement of the right hemisphere during discourse processing (St George *et al.*), 1317
Semantic memory dissolution in Alzheimer's disease (Harasty *et al.*), 675
Sensorimotor integration (Fink *et al.*), 497
Sensory perception, in right brain damage (Oliveri *et al.*), 1731
interhemispheric asymmetries (Oliveri *et al.*), 1721
Sensory processing in Parkinson's and Huntington's disease: investigations with 3D $H_2{}^{15}O$-PET (Boecker *et al.*), 1651
Sequential bilateral transplantation in Parkinson's disease: effects of the second graft (Hagell *et al.*), 1121
Serum gelatinase B, TIMP-1 and TIMP-2 levels in multiple sclerosis: a longitudinal clinical and MRI study (Lee *et al.*), 191
The size and fibre composition of the corpus callosum with respect to gender and schizophrenia: a post-mortem study (Highley *et al.*), 99
Skeletal muscle glycolytic activity in Becker muscular dystrophy (Lodi *et al.*), 121
Skeletal muscle, mutant protein expression (Mitrovic *et al.*), 1085
Skin cooling and heat sensation (Susser *et al.*), 239
Sleep-related disturbances, paroxysmal (Provini *et al.*), 1017
Smell and brain activation (Sobel *et al.*), 209
Smooth pursuit eye movements, and moving object analysis (Haarmeier and Thier), 1495
Smooth pursuit initiation, cerebellar deficits (Moschner *et al.*), 2147
Somatosensory responses in stroke (Forss *et al.*), 1889
Spastic gait, and tendon jerk reflexes (Faist *et al.*), 567
Spastic hemiplegia children, and impaired grip–lift synergy (Forssberg *et al.*), 1157
Spastic paraplegia, autosomal dominant pure hereditary (Reid *et al.*), 1741
Spatial attention, cerebral activation (Gitelman *et al.*), 1093
Necker cube study (Bisiach *et al.*), 131
Spatial deficits in ideomotor limb apraxia: a kinematic analysis of aiming movements (Haaland *et al.*), 1169
Spatial disorientation (Aguirre and D'Esposito), 1613
Spatial mapping of T_2 and gadolinium-enhancing T_1 lesion volumes in multiple sclerosis: evidence for distinct mechanisms of lesion genesis? (Lee *et al.*), 1261
Spatial memory after lobectomy (Nunn *et al.*), 47
Specific cognitive deficits in mild frontal variant frontotemporal dementia (Rahman *et al.*), 1469
Specific temporoparietal gyral atrophy reflects the pattern of language dissolution in Alzheimer's disease (Harasty *et al.*), 675
Spinal recurrent inhibition, transmission changes (Iles and Pardoe), 1757
Spinal root and plexus hypertrophy in chronic inflammatory demyelinating polyneuropathy (Duggins *et al.*), 1383
Spinal xanthomatosis: a variant of cerebrotendinous xanthomatosis (Verrips *et al.*), 1589
Spinocerebellar ataxia 2, cognitive deficits (Bürk *et al.*), 769
Standing posture, and brain activation (Ouchi *et al.*), 329
Steele–Richardson–Olzsewski syndrome (Rojo *et al.*), 1233
Story processing, neuroanatomy (Maguire *et al.*), 1839
Streptozotocin-diabetic rats, neurophysiology and insulin effects (Biessels *et al.*), 757
Striatal dopaminergic markers in dementia with Lewy bodies, Alzheimer's and Parkinson's diseases: rostrocaudal distribution (Piggott *et al.*), 1449
Striate cortex damage and pupil response (Weiskrantz *et al.*), 1533
Stroke, and fusimotor function (Wilson *et al.*), 2079
and somatosensory responses (Forss *et al.*), 1889
and training-induced brain reorganization (Musso *et al.*), 1781
mapping of irreversible ischaemic damage (Marchal *et al.*), 2387
Stromelysin-1, in bacterial meningitis (Kieseier *et al.*), 1579
Subcortical ateriosclerotic encephalopathy, and gait (Ebersbach *et al.*), 1349
The substantia nigra of the human brain. 1: Nigrosomes and nigral matrix, a compartmental organization based on calbindin D_{28K} immunohistochemistry (Damier *et al.*), 1421
The substantia nigra of the human brain. 2: Patterns of loss of dopamine-containing neurones in Parkinson's disease (Damier *et al.*), 1437
Subthalamic nucleus stimulation, in Parkinson's disease (Gerschlager *et al.*), 2365; (Krack *et al.*), 1133
neurophysiological effects (Ashby *et al.*), 1919
Surgical outcome in patients with epilepsy and dual pathology (Li *et al.*), 799
Sympathetic nerve discharge, and C-fibre afferents (Elam *et al.*), 2237
Synaptic connections, corticomotoneuronal (Maertens de Noordhout *et al.*), 1327
Syntactic–semantic processing (Friederici *et al.*), 1033

T-cell activation, and blood–brain barrier (Westland *et al.*), 1283
T-cell and B-cell response in multiple sclerosis (Lindert *et al.*), 2089
T-cell receptor heterogeneity in experimental autoimmune neuritis (Stienekemeier *et al.*), 523
Tau gene mutation, and frontotemporal dementia (Bird *et al.*), 741
Temporal lobe in semantic dementia (Mummery *et al.*), 61
Tendon jerk reflexes during spastic gait (Faist *et al.*), 567
Tension-type headache, and nitric oxide synthase inhibitors (Ashina *et al.*), 1629
Tetanus toxin model of limbic epilepsy (Milward *et al.*), 1009
The Thr124Met mutation in the peripheral myelin protein zero (*MPZ*) gene is associated with a clinically distinct Charcot–Marie–Tooth phenotype (De Jonghe *et al.*), 281
Tick-borne encephalitis (Kaiser), 2067
Topographical disorientation: a synthesis and taxonomy [review article] (Aguirre and D'Esposito), 1613
Torsion dystonia, idiopathic, *DYT1* mutation (Lebre *et al.*), 41
Training-induced brain plasticity in aphasia (Musso *et al.*), 1781

Transection, multiple subpial, for Landau–Kleffner syndrome (Grote *et al.*), 561
Transthyretin-associated familial amyloid polyneuropathy (Misu *et al.*), 1951
Transthyretin Leu12Pro is associated with systemic, neuropathic and leptomeningeal amyloidosis (Brett *et al.*), 183
Tremor, induced by transcranial magnetic stimulation (Topka *et al.*), 1551

Unilateral neglect and disambiguation of the Necker cube (Bisiach *et al.*), 131

Ventral medial wall motor areas in bimanual co-ordination (Stephan *et al.*), 351
Verb and noun processing, neural correlates (Perani *et al.*), 2337
Vestibular perception of angular velocity in normal subjects and in patients with congenital nystagmus (Okada *et al.*), 1293
Visual agnosia and memory (Riddoch *et al.*), 537
Visual analysis of moving objects, and smooth pursuit eye movements (Haarmeier and Thier), 1495
Visual attention over time (Miniussi *et al.*), 1507
Visual awareness in hemianopia (Weiskrantz *et al.*), 1533
Visual control of locomotion in Parkinson's disease (Azulay *et al.*), 111
Visual disturbances in cerebellar disease (Thier *et al.*), 2133
Visual evoked potentials in migraine patients: alterations depend on pattern spatial frequency (Oelkers *et al.*), 1147
Visual hallucinations (ffytche and Howard), 1247
Visual perception of motion, luminance and colour in a human hemianope (Morland *et al.*), 1183
Visual processing, following prestriate lesion (Frassinetti *et al.*), 339
preattentive, in Parkinson's disease (Lieb *et al.*), 303
Visual word processing, occipitotemporal cortex involvement (Tarkiainen *et al.*), 2119
Voluntary movement after pallidotomy in severe Parkinson's disease (Kimber *et al.*), 895
Voxel-based mapping of irreversible ischaemic damage with PET in acute stroke (Marchal *et al.*), 2387
White matter brain metabolites in multiple sclerosis (Sarchielli *et al.*), 513
Word aphasia, lexical processing (ter Keurs *et al.*), 839
Word processing, brain regions (Saykin *et al.*), 1963
in dyslexia (Brunswick *et al.*), 1901
neural correlates (Perani *et al.*), 2337
Word reading, occipitotemporal cortex involvement (Tarkiainen *et al.*), 2119
Word recognition, neural substrates (Kim *et al.*), 1069

Xanthomatosis, spinal (Verrips *et al.*), 1589
